

## Who do we serve?

The Odyssey Village is a drug-free comprehensive recovery community that serves as a microcosm of society. Our holistic approach challenges participants to be economically self-reliant, develop positive character, and become spiritually, physically, emotionally, and psychologically healthy in a lifestyle of sobriety.

**The goal is to change one person's life, which will affect not only their family, but their community and future generations.**

The Odyssey Concept is designed to be inclusive, not exclusive. Our participants are diverse, culturally, economically and politically. The unique blend creates a therapeutic community that is experientially and educationally essential to the treatment process. Each person
