A quarterly newsletter brought to you by Flint, Saginaw and Port Huron Odyssey Houses.

Family Based Prevention

Specialty Coaching for Pregnant Women.

Adolescent Outpatient

Virtual Tour

Prevention Program Open House.

Flint Odyssey House will be holding an open house on June 12 at 6pm to introduce families to the Strengthening Families program. Funded with support of MDHHS and Region 10PIHP, the Strengthening Families program is a nationally renowned evidenced based program for families with children ages 8-15. The 3 hour program is provided over a 14 week period. **Confirm your spot by calling Nichole at (810)238-5888. All groups and activities will be held at 1108 Lapeer Road, Flint. Child care for children under age 8 and transportation are available.**

Enhanced Women's Specialty Services

Newly implemented in October of 2016, the Enhanced Women's Specialty program provides community based coaching and parenting support for pregnant and post partum women. Parenting Advocates are peers in that they share the experience of being mothers in recovery. Funded through MDHHS, Region 10PIHP and MSHN services are available to all pregnant and post partum women in our Flint and Saginaw Residential Facilities, the Flint Odyssey Outpatient programming and by self referral. Go to ; www.odysseyvillage.com or call any of our programs for more information.

Adolescent Outpatient Program

Flint Odyssey House Out Patient will soon begin enrolling youth ages 13-17.

Programming was initiated in coordination with the 7th Circuit Court and is currently enrolling youth in day treatment, Intensive Outpatient and outpatient programming.

Services to be provided at our Oak Street location.

Call (810)232-7919 for more information.

Media Project to Address Treatment Reluctance

Denzel Moten, Marketing and Management Intern from Eastern Michigan University, will be completing a summer project that includes a virtual tour of the Flint and Saginaw Residential Programs.

Moten indicates that "moving into a new place requires mental preparation". The virtual tour will not only provide information about available services but help allay anxiety regarding the facility and the therapeutic community.
