

Who do we serve?

The Odyssey Village is a drug-free comprehensive recovery community that serves as a microcosm of society. Our holistic approach challenges participants to be economically self-reliant, develop positive character, and become spiritually, physically, emotionally, and psychologically healthy in a lifestyle of sobriety.

The goal is to change one person's life, which will affect not only their family, but their community and future generations.

The Odyssey Concept is designed to be inclusive, not exclusive. Our participants are diverse, culturally, economically and politically. The unique blend creates a therapeutic community that is experientially and educationally essential to the treatment process. Each person no matter their race, ethnicity, gender or economic background brings their own unique talent and story to the Village.

Pregnant and Parenting Women are a priority for admission to treatment.
